

Access to Vehicle Repair and Maintenance Information – EC 715/2007

Article 6

To comply with the above legislation, applicable from 1st January 2014, Dennis Eagle Ltd. are obliged to provide unrestricted and standardised access to vehicle OBD information; vehicle repair and maintenance information, including any special tools or relevant software and training material to independent operators through a website.

All the technical and training documentation/information is covered by Dennis Eagle Ltd. Copyright and approval must be sought and gained before any use or reproduction is permitted.

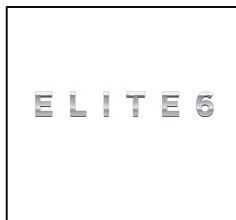

Should any documentation/manuals be required an application should be made to the Dennis Eagle Ltd. Parts Department – 01926 458555.

A charge will be made for the above. All information will be supplied on CD-ROMs.

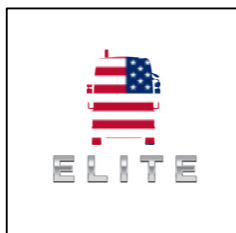

To access the Dennis Eagle Ltd. RMI Site click on the ‘Log In’ Icon on the right hand side of the Home page to access the link to the ‘Repair and Maintenance Information Site’

It will be necessary for all users to register on the site, by completing the RMI Registration Form, before access to the site will be permitted.

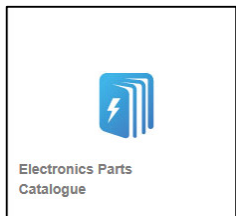

Once registered and you have access to the site you will see the following Icons:

Following the link on the Elite 6 Icon will take you into a web page containing documentation on the Elite 6 Chassis.

Following the link on the Elite Icon will take you into a web page containing documentation on the Elite (US) Chassis.

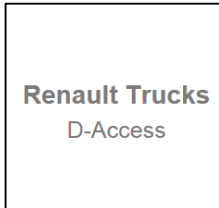

Following the link on the Electronic Parts Catalogue Icon will take you into a web page containing the EPC, if you are not a registered user you will need to register your details on the application form. When this is processed you will receive a user name and password allowing you access to the catalogue.

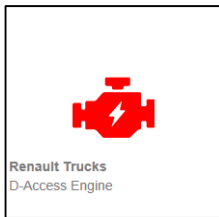

Included in the Secondary Information on a Euro 6 vehicle the WVTA

(Whole Vehicle Type Approval) number will be shown, see below:
